

THE CASTLE (from an medieval blueprint).
The playing field is divided into many areas, with 4 goal in each corner.

Kick and Rush

Lathi is famous for sport events, so what would be more suitable for the marketplace in Lathi, than a new game, based on the oldest game in the world.

My proposal for TORI - Oon kaupungissa 2012, is the public art project Kick and Rush.

The project includes a game installation in the marketplace (or in an other public space in Lathi)

- an asphalt version for everyday use
- a green version
- performances (arranged on special days)
- spontaneous competitions (by passersby)

THE ONLY RULE IS THAT THERE ARE NO RULES

TORI, OON KAUPUNGISSA, LAHTI 18.8.-1.9.2012
(my part of the exhibition was found in the Fellman Park).
