

TEMPORARY SUNSETS (3.34 min)

SYNOPSIS:

Time and change is the main focus in the video 'Temporary Sunsets', showing small changes in nature due to a warmer climate in Finland.

Alien species or new sub-species can potentially cause huge imbalance and changes to ecosystems, although they look harmless and beautiful.

Sound by Biosphere

Shown during Eco Film Festival (April 29 - May 1, 2011)
Taigh Chearsabhagh Museum & Arts Centre, Outer Hebrides
